D14-M4/M6 Squirrel® Fixings

Squirrel® Fixings have been developed to allow fabricators to make a mechanical screw fixing into a 12mm sheet of Corian®. The insert is recessed a maximum of 8mm into the back of the sheet to prevent it from being visible through the face side. Please note that the inserts will be visible through translucent colours.

**Uses:**
- 12mm Table tops
- 12mm Cabinet Doors
- Rain-Screens
- Internal Wall Cladding
- Furniture components.
- Ceiling Panels.
- Signage
- Under-mounting Stainless Steel sinks.

**Fitting Instructions:**
- Rout a 14mm diameter x 8mm deep pocket.
- Clean pocket with De-Natured Alcohol.
- Assemble Steel and Corian® Squirrel® parts.
- Test fit Squirrel® fixing into pocket.
- Quarter fill pocket with Corian® adhesive.
- Place Squirrel® fixing into pocket.
- Give fixing a ¼ turn.
- Allow approx. 30-40 mins to harden before sanding away excess adhesive.
