		This colour has translucent properties, offering potential for lighting effects with Corian®	The veining of these colours may vary in intensity and highlight joins	Colour change of less than or equal to 5ΔE* ab units in 10 years - good choices for exterior applications	Colour change of 5 to 15ΔE* ab units in 10 years - good choices if some colour change is not objectionable	Colour change of greater than 15ΔE* ab units in 10 years - potential choices if greater colour change is acceptable. IMPORTANT: UV RESISTANCE IS NOT RELEVANT FOR INDOOR USE	This colour is produced with DeepColour™ Technology* and offers a darker, deeper, richer colour appearance, reduced whitening caused by impact, heat or thermoforming and reduced sanding time to achieve the desired finish than former versions. (*Patent pending)	Dark colours of Corian® tend to show every day wear and tear, including light scratching, more readily in high use horizontal areas (eg. kitchen benchtops). To ensure we meet your expectations, customers should be aware of the extra care needed. Scratching is not considered a product defect and hence not covered by the 10-year warranty.
